THE GREENING
NURSERY COMPANY
MONROE, MICHIGAN

Largest Growers of Trees in the World

**Greening's Own Growing
Carefully Graded**

CONDITIONS OF BUSINESS IMPORTANT

Please Read Carefully

In the growing and distribution of Nursery Products, Nature fixes the cycles and controls the conditions of growth and shipping.

The Greening Nursery Company operates with the best of man-made facilities, but because of the limitations prescribed by nature—

Prices here listed are subject to change without notice.

Prices are for goods delivered and cash on delivery. The Greening Nursery Company is not bound except by conditions written into original orders.

The Greening Nursery Company does not waive any condition of the contract of which our order blank is a part.

The Greening Nursery Company—will replace without cost—any tree, plant or root, except evergreens, purchased from them, that may prove untrue to name or that may be lost from any fault of condition upon receipt, providing we are notified before October 1st following delivery.

The Greening Nursery Company does not guarantee or replace Evergreens.

We solicit your orders on our record of Eighty years of fair dealing and on the assurance of the treatment that we would expect were our positions reversed.

Sincerely,

THE GREENING NURSERY COMPANY.

A Message of Importance

To our friends and customers about **GREENING NURSERY PRODUCTS**

As to integrity -- an old Persian Proverb says:

"My son, the priceless ingredient of every product in the market is the honorable integrity of him who makes it--that quality stands for true worth. Consider well his name before you buy."

No line of human endeavor carries more of a trust of honor than does the nursery business—and knowing that trust—for eighty years—Greening's Nurseries have been mixing into their products, "that priceless ingredient." We have labored unceasingly to make the name Greening mean much in its application to Nursery Products.

By close intimacy with the simple laws that govern an honest effort to serve as we would be served, we constantly strive to merit the continued patronage of our friends and customers

Eighty years is a long time in the span of American business life, and it is unusual for the ideals and pioneer sincerity of purpose to have been carried on for more than three quarters of a century, by one family.

Born in 1850 -- Still Growing

is a slogan that is more than a "battle-cry" of business. It is a goal of attainment that involves constantly setting the stake ahead.

Greening Research

Ever alert to the trust reposed in us, Greening research is conducted by experts—under a merciless system of observation—record—and selection.

It is our unwavering practice to eliminate that which may prove below the exacting standards that we have fixed for Greening Merchandise.

To the vast field of new varieties and so-called novelties, we hold a tolerant but critical attitude. All are given fair trial, but it is the invariable Greening practice to hold fast only to those that have outstanding merit.

You may purchase Greening Nursery products with the full confidence that Greenings have long ago instituted knowledge for uncertainty, and that Greening Nursery Products are the result of years of knowing definitely what to do, and consistently doing it.

We urge the earnest consideration of our friends, of the experience and record of our eighty years of service.

Sincerely,

**THE GREENING
NURSERY COMPANY
Monroe, Mich.**

Greening's Own Growing Carefully Graded

SELECTED SPECIMEN EVERGREENS

When you know the beauty of the Evergreens, you realize their great value in home beautification.

In their use the vast hush of the forest is obtained together with the song of the winds as they sing through these Sentinels of permanency that defy the elements and time.

The following list of Evergreens is selected from the best, well formed trees in our nursery rows. They will be carefully dug with a large ball of earth and sewed up with burlap to hold the earth intact.

Large Evergreens cannot be transported with any degree of success without being dug with ball of earth.

Our Evergreens are grown in heavy soil of a clayey nature. The reason for doing this is that when they are dug for shipment the earth clings to the roots and the root system is not disturbed in the process of digging. Evergreens can be transplanted with success during the spring season. But use plenty of water!

Our prices are packing free, also delivered to destination. These points, plus the fact that all Specimen Evergreens are dug with ball of earth which is carefully sewed up with burlap should be taken into consideration.

Evergreens Are Not Guaranteed

(WHITE FIR)

A tree with handsome green to bluish foliage.

About Evergreen Prices

Few people realize the time it takes to grow an Evergreen tree in the nursery. Trees with well developed roots and tops take from seven to ten years to grow. At that time they are from two or three feet or three to four feet in height for tall varieties and much smaller for dwarf varieties. Such trees make rapid progress when planted on your grounds because they have a fibrous root system. Nursery grown trees are not to be compared with native or wild trees which rarely transplant successfully or live even tho apparently starting off all right. Greening Evergreens are scientifically grown and represent but a fair exchange in price, for time and money invested.

(BERKMAN'S GOLDEN) <div style="text-align: right;">Each</div> 12 to 18 inch ----- \$5.00 18 to 24 inch ----- \$7.50	Thuja Orientalis Aurea Nana
(SIBERIAN ARBOR VITAE) Hardy, conical, dark, dense foliage. Valuable for hedges and screens. <div style="text-align: right;">Each</div> 18 to 24 inch ----- \$ 5.00 2 to 2½ ft. ----- 7.50 2½ to 3 ft. ----- 10.00 3 to 3½ ft. ----- 12.50	Thuja Occidentalis Sibirica

Hardy Perennials—Continued

PEONIES

For massing in beds or for planting in groups in perennial or shrubby borders, their brilliant hues add much to the beauty of any planting. They are perfectly hardy and produce their showy flowers in great abundance.

Peonies will thrive in any good soil. They respond remarkably to feeding. It is suggested that they receive an annual application of cow manure, spading in carefully.

Common Peonies

	Each	Twelve
By color only-----	\$1.00	\$10.00

Five Very
Desirable
Peonies

No Planting
Is Complete
Without
Them

(AVALANCHE)

Late midseason bloomer, opens like a rose bud; color pure snow white with a few delicate pencilings of carmine on edge of central petals. Fragrant.

Each	Three	Twelve
\$2.00	\$5.00	\$18.50

(BARONESS SCHROEDER)

Rose type, mid-season. White with shadings of flesh. This is one of the finest Peonies. Its immense flowers of great substance with high chalice-shaped center are freely produced, lasting a long time. Very fragrant.

Each	Twelve
\$1.75	\$18.00

(KARL ROSENFELD)

Karl Rosenfield outshines all red Peonies in magnificence of coloring, perfect formation of bloom, abundance of flowers and strength of roots. The flower is large, of semi-rose type, a rich deep brilliant crimson on long, straight stem, slightly fragrant. Plant is tall, strong and upright, and bears a large, brilliant flower on every stem. Foliage is rich dark green. Blooms mid-season.

Each	Twelve
\$1.75	\$18.00

(PRESIDENT TAFT)

One of the newest and most beautiful of Peonies. Color, pink. A vigorous variety, producing flowers in profusion. Must be seen to be appreciated.

Each	Twelve
\$2.00	\$20.00

(SARAH BERNHARDT)

Extra Special Offer on One of Our Handsomest.

Color similar to that most wonderful flame pink of the Los Angeles—America's most beautiful rose. The Sarah Bernhardt is a vigorous grower bearing large flowers in abundance, is rated among the very best by the American Peony Society.

Each	Twelve
\$1.75	\$18.00

Integrity *and* *Greening Nursery* *Products*

As to integrity—an old Persian proverb says, "My son, the PRICELESS INGREDIENT of every product in the market is the Honorable Integrity of him who makes it—that quality stands for true worth. Consider well his name before you buy."

No line of human endeavor carries more of a trust of honor than does the nursery business.

For eighty years Greening's Nurseries have been mixing into its products "The Priceless Ingredient."

By close intimacy with the simple laws that govern an honest effort to serve as we would be served, we constantly strive to merit the continued patronage of our friends and customers.

Greening's Own Growing Carefully Graded

Greening's Double Guarantee

In the conduct of a business that is so entirely one of confidence, as is the nursery business, the inherent honesty and moral responsibility of the grower and seller counts for infinitely more than the insurance of the commodity in trade.

The buyer of a tree or plant is not buying a finished product but the means (after years of waiting) whereby his efforts may succeed or fail.

From the beginning a practice of fair dealing has been maintained and now after eighty years, we are proud of the record of growth that is the reward of right service.

Greening Nursery Products are sold under a double guarantee that safeguards the interests of our customers.

First—We unqualifiedly guarantee all stock to be true to name.

Second—We guarantee all stock to have been properly packed and also safe delivery to you.

If for reasons beyond our control such as delay in transportation, etc., or if through error any stock should prove untrue, The Greening Nursery Company will, without condition, replace or refund the purchase price.

There are of course conditions of planting and weather that may affect the future of all plantings. Over these conditions we have no control, consequently—

The Greening Nursery Company assumes no responsibility other than the unusual conditions set forth in our double Guarantee.

THE GREENING NURSERY COMPANY
MONROE, MICHIGAN

Greening's Trees Grow

Greening's Trade-Mark

Designed to

PROTECT YOU

As the Ancient Alchemist used the bulls eye (or circle with a dot) as a symbol to indicate pure gold, the trade mark of The Greening Nursery Company is a pictorial symbol, with a message, that carries an importance, measured by security, for the buyer of Nursery Products.

Sterling on Silver—Wedgewood on Pottery, Karpon on Furniture, all have a significance, that dispels doubt in the mind of the purchaser and so with the Greening Trade Mark—Trees You Can Trust—there is the assurance that comes from a record of Eighty years of keeping the faith.

The wondrous alchemy of nature assisted by the constructive intelligent work of the experienced Greening grower, has unfolded the embryo of seed or developed the bud or scion into a merchantable tree or shrub, but that in itself is of little importance to mankind, unless careful methods have perpetuated or evolved some meritorious fruit or flower.

As a symbol of careful, persistent methods—as a mark of inherent good qualities—as a decoration for real attainment—the Greening Trade Mark is in truth the seal that is the distinguishing label for

TREES YOU CAN TRUST

To avoid uncertainty as to parentage—to insure all that intensive and extensive research and advanced science has proved of value—to both the amateur and commercial grower, look carefully for—and insist on having—that distinguishing Greening Trade Mark for it is—

THE SEAL OF QUALITY
